ABOUT ME

I am a senior year Computer Science Engineering student at Polytechnic School of Sousse. I am very passionate about front-end development and i strive to create intuitive and ergonomic user interfaces that engage users. I am eager to gain hands-on experience in web development through a 4 to 6 months internship for my final study project.

PROFESSIONAL EXPERIENCE

Mobile Development Internship jun 2023 – Sep 2023

Envast, Tunisia

The ESS football team wanted to develop a cross-platfrom mobile app that allows its fans to check the teams latest news, updates and match results while contributing small donations to the team through a custom made ad-providing system.

- Met with the team to understand their needs and requirements.
- Divided the tasks into sprints in JIRA.
- Developed a cross-platform mobile app for the ESS football team using React Native and Expo relying on the provided FIGMA mockup.
- Worked with the backend developer to integrate the API endpoints.
- Conducted weekly product owner meetings to track app development progress.
- Built the apk version using the expo platform
- Delivered the MVP version of the app in time to the client with all the needed functionalities, including OTA updates and push notifications.

Web & mobile Development part-time job Oct 2022 – Jan 2023

Enterprise eSolutions, Tunisia

The real estate investment firm "S7equity" wanted a web and mobile app that allows its clients to check on new investment opportunities available and make investment requests

- Divided the tasks into sprints in ClickUp.
- Developed a web & mobile app for s7equity on the same codebase using React, React Native, Expo and react-native-web for the web version relying on the provided FIGMA mockup.
- Integrated the API endpoints.
- Delivered the project and hosted it.

Web Development Internship Jul 2022 – Sep 2022

Enterprise eSolutions, Tunisia

Created a web app using ReactJS that enables charity associations to manage their files, donors and cases which used to be originally on paper only.

- Created the mock-up design using FIGMA.
- Developed the web app using reactJS.
- Integrated the API endpoints.
- Synced my work to Github.

Web Development Internship Feb 2022 – May 2022

Tunisian Modern Newspaper, Tunisia

Created a website in reactJS for TMN (Tunisian Modern Newspaper) which includes blogs, articles and podcasts

- Implemented the mockup design provided by team members.
- Developed the website using reactJS.
- Integrated the API endpoints.
- Created the Github organization and repository for my colleagues.
- Overviewed the the pull requests and merges in the repo made by the team.
